## Students' Satisfaction Survey, 13-15 July, 2021

No. of Respondents: 794

Department  
794 responses

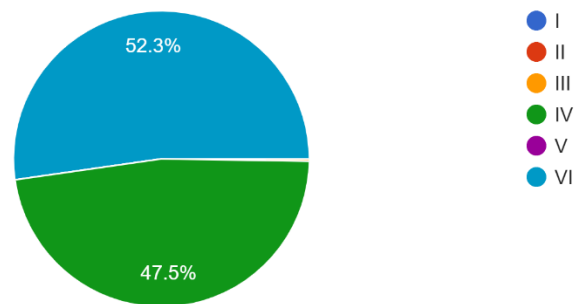

Department  
794 responses

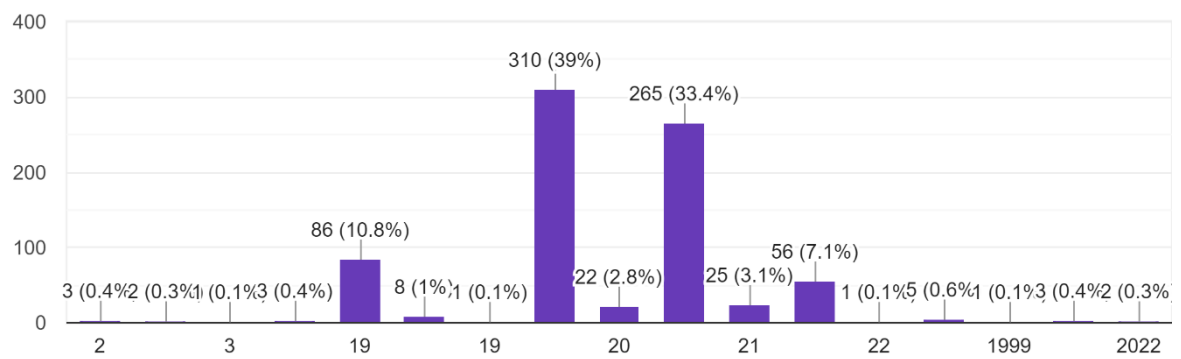

### Semester

794 responses

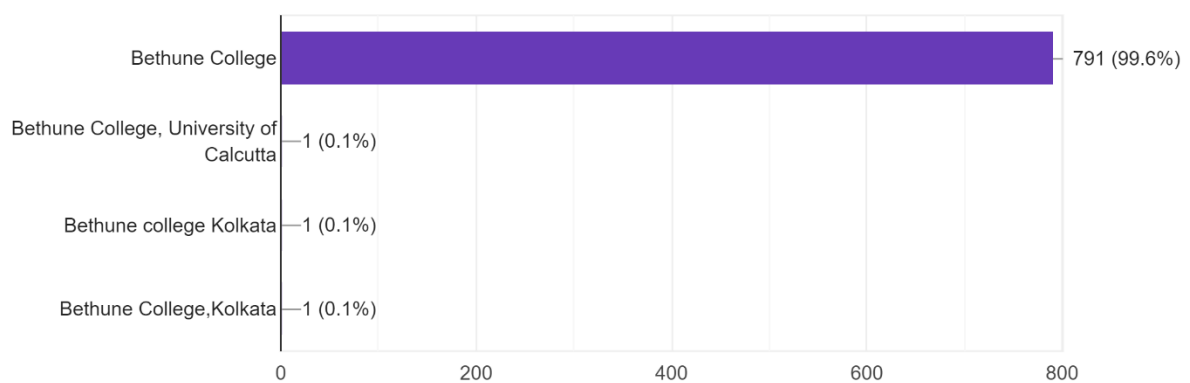

### B) Age (in completed years):

794 responses

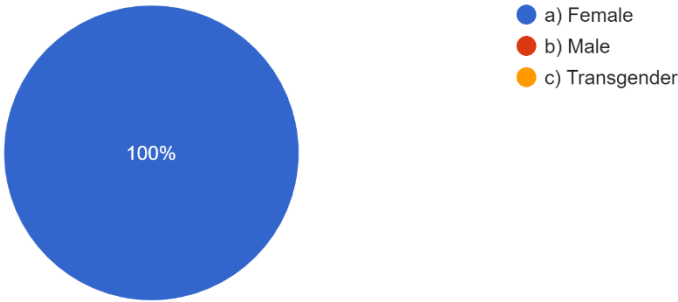

### C) College Name:

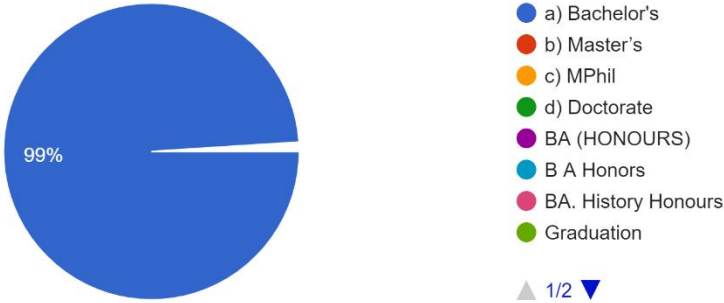

794 responses

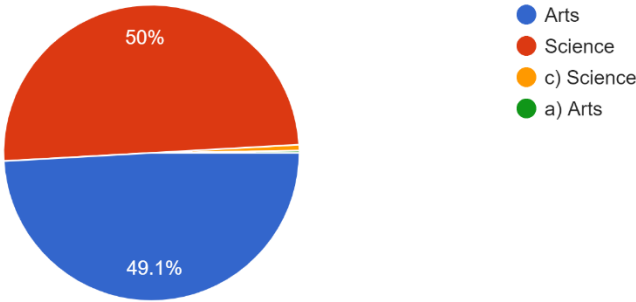

D) Gender:  
794 responses

E) What degree program are you pursuing now?  
794 responses

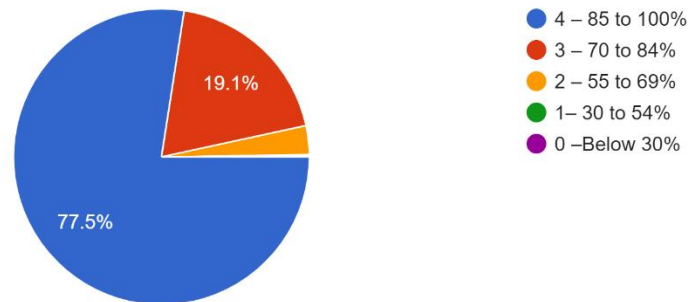

F) What subject area are you currently pursuing?  
794 responses

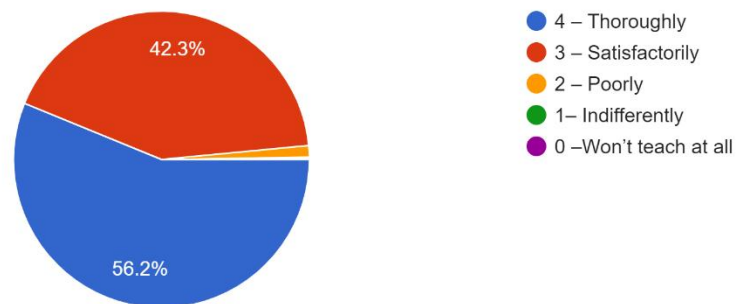

1. How much of the syllabus was covered in the class?

794 responses

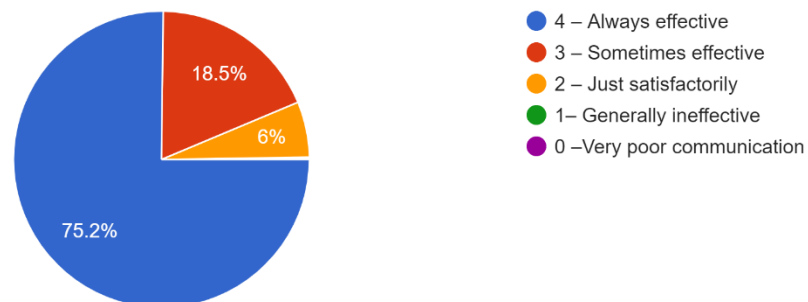

2. How well did the teachers prepare for the classes?

794 responses

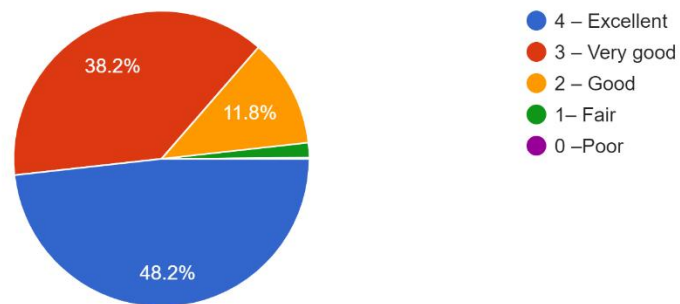

3. How well were the teachers able to communicate?

794 responses

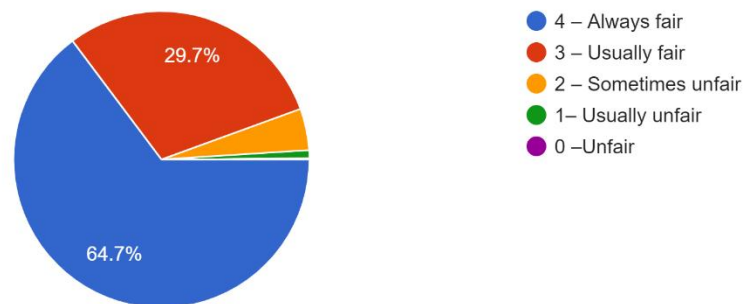

4. The teacher's approach to teaching can best be described as

794 responses

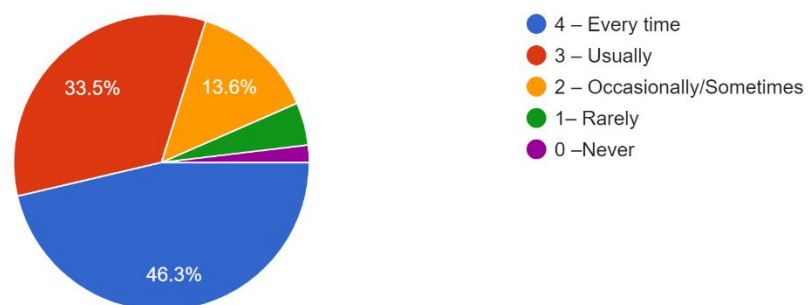

5. Fairness of the internal evaluation process by the teachers.

794 responses

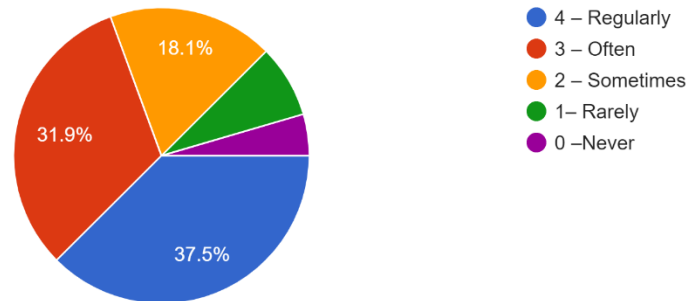

6. Was your performance in assignments discussed with you?

794 responses

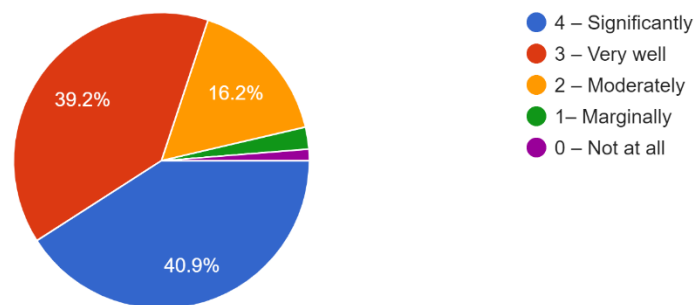

7. The institute takes active interest in promoting internship, student exchange, field visit opportunities for students.

794 responses

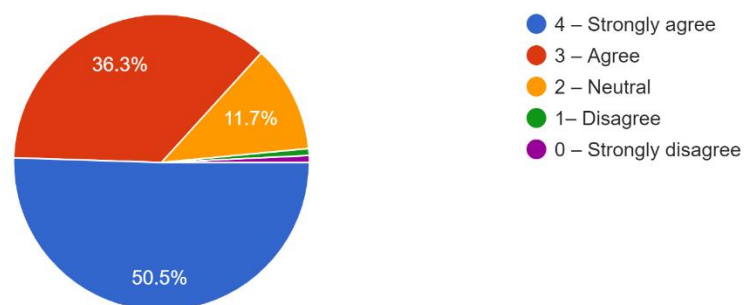

8. The teaching and mentoring process in your institution facilitates you in cognitive, social and emotional growth.

794 responses

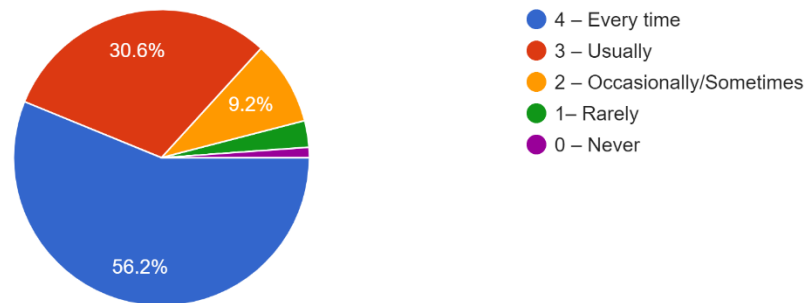

9. The institution provides multiple opportunities to learn and grow.

794 responses

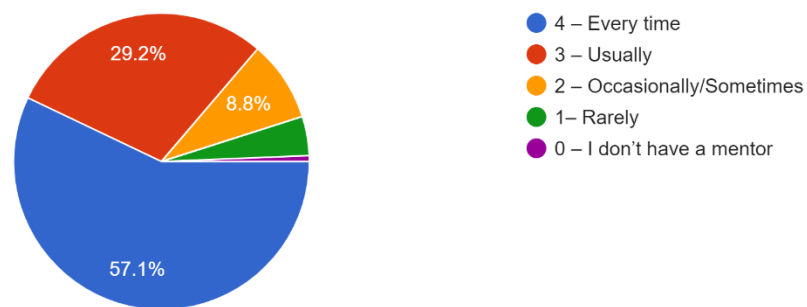

10. Teachers inform you about your expected competencies, course outcomes and programme outcomes.

794 responses

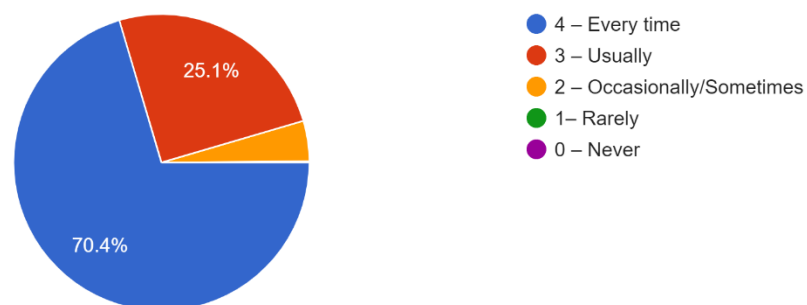

11. Your mentor does a necessary follow-up with an assigned task to you.

794 responses

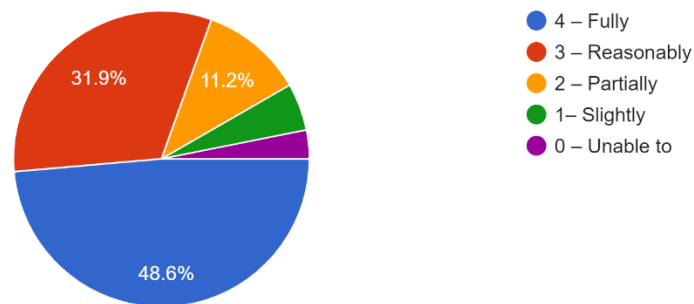

12. The teachers illustrate the concepts through examples and applications.

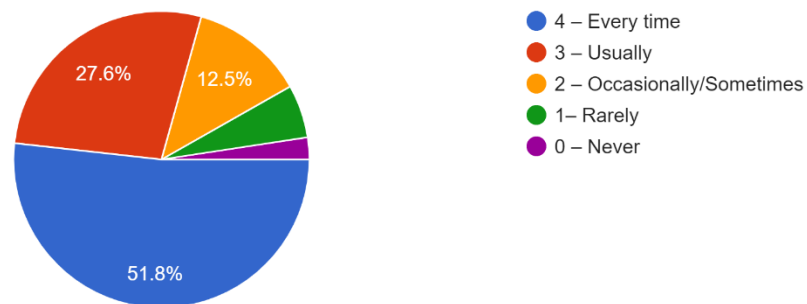

794 responses

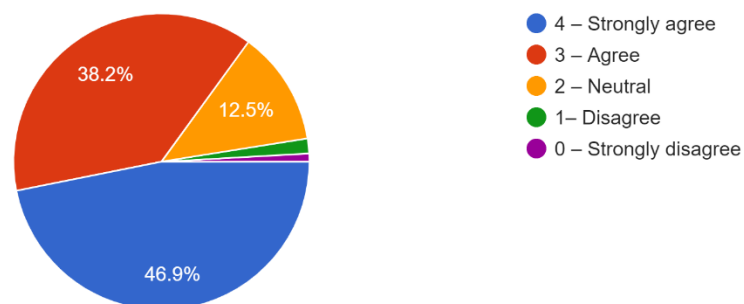

13. The teachers identify your strengths and encourage you with providing right level of challenges.  
794 responses

14. Teachers are able to identify your weaknesses and help you to overcome them.  
794 responses

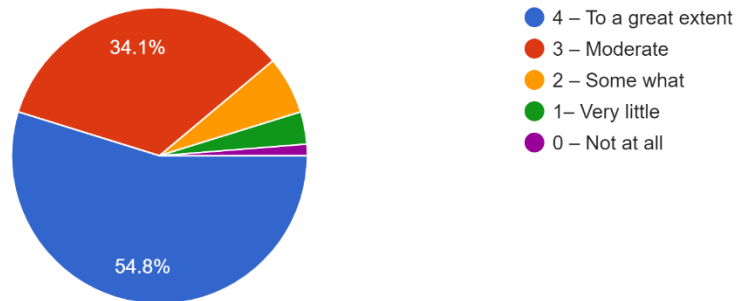

15. The institution makes effort to engage students in the monitoring, review and continuous quality improvement of the teaching learning process.  
794 responses

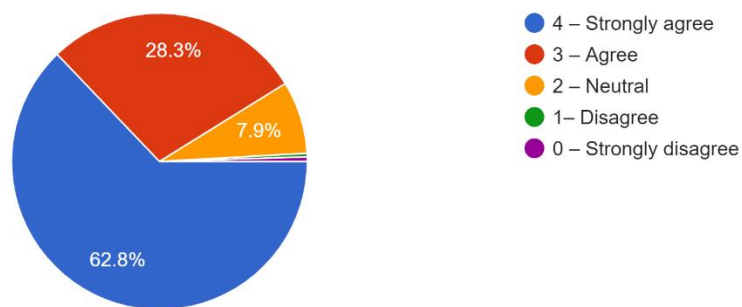

16. The institute/ teachers use student centric methods, such as experiential learning, participative learning and problem solving methodologies for enhancing learning experiences.

794 responses

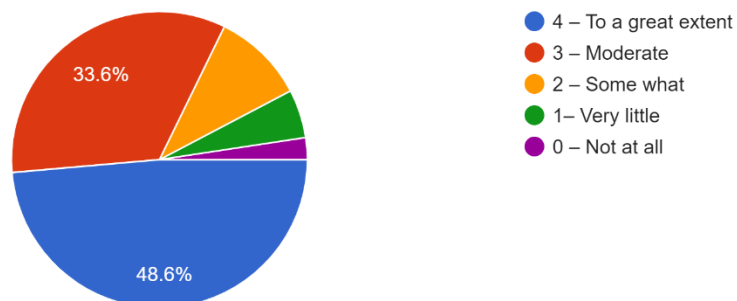

17. Teachers encourage you to participate in extracurricular activities.

794 responses

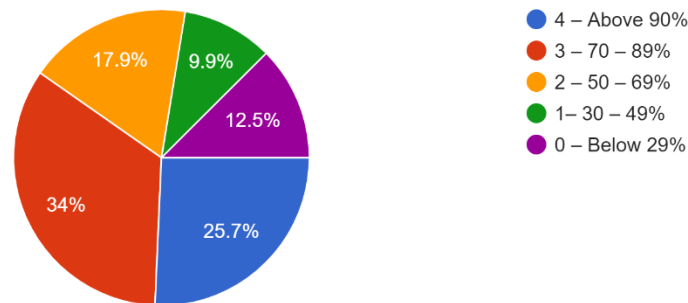

18. Efforts are made by the institute/ teachers to inculcate soft skills, life skills and employability skills to make you ready for the world of work.

794 responses

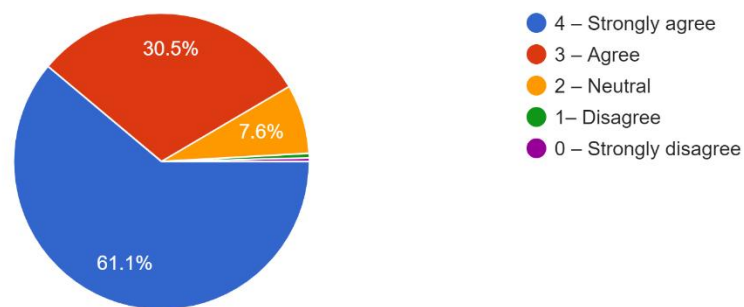

19. What percentage of teachers use ICT tools such as LCD projector, Multimedia, etc. while teaching.

794 responses

20. The overall quality of teaching-learning process in your institute is very good.

794 responses

21. Give three observation / suggestions to improve the overall teaching – learning experience in your institution.

(a)

- Workshops to enhance the skills required for various job markets (Programming languages/tools/etc.)
- Teachers are extremely amicable. They are understanding and are committed to solving our problems, academics or otherwise.
- To give more interesting classes for throughout discussion of every topic
- More information about internships and field works, projects, seminars.
- Being a student of 4th semester I often find difficulties about which course I am going to choose after graduation. If teachers discuss about these things like which courses will be suitable for me, which courses have scope and many different competitive exams for which I can apply it will be very helpful for us.

- Some practical instruments are old. Sometimes there is a chance of erroneous reading due to this or chance of damage of the instruments. It is better if these can be replaced.
- More practical assignments, projects and internship opportunities.
- Doubt clearing classes
- The teaching learning process should be more compact and the college authorities should arrange a easily accessible common room where a student can do her own work when there is no scheduled class
- I guess, providing record of the classes through Google classroom or any other platform like it will be helpful as internet connection is not consistent.
- It would be great if teachers interact with us more frequently not only in studies but also in other fields of life as well.
- I wish there were recorded lectures available.
- Real world problems related to the subject should be discussed more thoroughly
- Give equal importance to all languages
- Teacher's should motivate students to make believe in herself that she can achieve what she want in this institute.
- More focus on in-depth learning which should not be restricted to the syllabus.
- Teachers should make more use of ICT tools while explaining a subject in order to transform the teaching-learning process into a more interesting experience.
- No Entrepreneurship cell is here. It would be great if one is established.
- The webinars which are conducted by our college is of little to no use. They should conduct webinar which will help us to enhance our technical expertise
- Including practical approaches like excursion or nature study
- In my opinion workshops for new skills learning related to the subject which is perusing by the student would be good.
- Institute should enhance problem solving ability, improve their decision making ability in difficult situation and should treat every language equally.
- Need little more academic books in the library
- giving suggestion about career after passing out

(b)

- Teaching and learning process can be made more attractive by the usage of videos, presentations etc.
- Development of soft skills and employability skills and real problem solving.
- Work out more exercise for our doubt clearance
- Discuss more mcq and examples regarding the chapter
- I will suggest to give assignments after finishing a topic and discuss it in the next class. Problem solving is really needed.
- College should concentrate more on future career opportunities of students not only in higher studies but for others competitive exams too
- Teacher's should take one time a day to ask students if they are facing some problems in subject, learning or communicate to herself or others .so she/ he can help the students to overcome in it.
- Books should be more available

- After finishing the whole syllabus revision classes are desirable.
- Make connection to real world application of the course material.
- Encourage active and practical learning. Make connections to real-world applications of the course material. Revision of daily classes.
- Increase the number of teaching staff.
- In my opinion, frequent short exams after completion of each topic will be really convenient for us to cope up with the ongoing session as well as assess our own positions.

(c)

- Special focus should be given on weaker students or slow learners of class.
- Mentoring should be taken seriously and routinely checking out with mentee.
- Test twice or thrice a month
- Gives home assignment after finishing the chapters
- Encourage internships and prepare students for future challenges such as facing an interview or facing an entrance at national level.
- Relation between teachers and students should be more friendly. So that the students may be able to communicate their problems.
- The only regret I have is of not being able to perform practical experiments in the Department labs, but can't help it in this pandemic situation. I hope once this pandemic is over everything will be back on the track .
- The regular online class time should be in between 10am to 5pm because we the students have many other things to do like self-study, tuitions, preparing for entrances etc. which are part of our daily routine.
- Online class-এ আমরা হাতে-কলমে practical করার সুযোগ থেকে বঞ্চিত হয়েছি। online class-এ প্রোফেসররা আমাদেরকে যথাসম্ভব practical বোঝানোর চেষ্টা করেছেন। তবুও হাতে-কলমে করে না দেখলে যেন মন ভরে না। মহামারীর প্রকোপ কাটলে, কলেজ খুললে আমরা এই practical সম্পর্কিত যন্ত্রপাতিগুলির ব্যবহার হাতে-কলমে একটু জানতে চাই। সেই সুযোগ করে দিলে খুবই বাঞ্ছিত থাকবে।
- If we are informed about all the competitive examination and the way to start preparing for them at the very beginning then it will help us to crack those exams
