PROGRAMME OUTCOMES (PO)

Programme Outcomes (POs) are what knowledge, skills and attitudes a graduate should have at the time of graduation. POs are not specific to a discipline.

Programme Outcomes: Bachelor of Arts (Honours)

B.A.(Hons.) Programme offers in depth knowledge about different areas of languages, humanities and social sciences that are theoretical as well as can be put to practice. In this Institution, the subjects taught under B.A. Programme are Bengali, English, Hindi, Sanskrit, History, Political Science, Philosophy, Psychology (BA) and Women's Studies (BA Gen). Students are built into multidimensional personality and are able to correlate Languages with social sciences

- PO1. After completing 3 years of Undergraduate B.A. Programme, the Students are expected to develop better understanding of Language & Literature, humanities, social sciences and Gender related studies in Indian perspective and the World at large.
- PO2. The B.A. graduates from this College would understand the importance of humanities subjects in terms of aesthetic, mental, moral and intellectual development of an individual and accordingly of the society.
- PO3. The B.A. graduates from this College would develop better communication skills, be articulate in deliberation of their core subjects and also get interested in Interdisciplinary topics for further study and research. They become more sensitive towards contemporary social, moral and political issues.
- PO4. The students would have a matured outlook towards life with rational common sense, critical thinking, and power of logical analysis. They learn to distinguish between outward speech and behaviour of a person and inherent meaning underlying it, thus achieving better understanding of human nature. Thus, they maintain a tolerant attitude towards views of others, mediate disagreements and help reach conclusions during group discussions.
- PO5. The graduates of the program are expected to appear for various competitive examinations or enter professional/ career oriented courses. They opt for a wide range of careers of their choice like Administrative and Civil Services, Banking, Teaching, Journalism, Mass Communication, Hotel and Hospitality management, Consultancy Services etc.
- PO6. After completing BA programme, Graduates choose the post graduate programme of their interest in reputed institutions. They also venture for higher studies in interdisciplinary subjects. They pursue research work in Institutions like Indian School of Languages, Indian Institute of Advanced Studies, IITs and also broaden horizons by getting admitted in Post graduate and research programmes in foreign countries.
- PO7. The Programme inculcates morals and values amongst its students so that they become socially responsible citizens of the country and take the journey of life with challenge and dignity. Students of this college become empathetic and compassionate towards fellow human beings serving the society at large.

Programme Outcomes: Bachelor of Science (Honours)

B.Sc. (Hons.) Programme offers theoretical as well as practical knowledge about different subject areas of basic science and social science. In Bethune College, these subject areas include Physics, Chemistry, Mathematics, Botany, Zoology, Computer Science, Statistics, Psychology and Economics depending on the Honours subject a student opts. The programme is also beneficial for students who wish to pursue multi and inter-disciplinary science careers in future. A well planned study programme is followed for holistic development of the students. Apart from imparting in depth knowledge over the respective subject the aim of the programme is to make the students responsible citizens with good moral and ethical values.

- PO1. This programme helps to develop scientific aptitude and thus can prove to be highly beneficial for the society and for the progress of the nation.
- PO2. This programme helps to develop critical thinking, creativity, analytical and problem-solving skills among the students.
- PO3. The students will be able to learn necessary computational skill, use of technology and use of ICT required for an effective learning experience and further progress to higher studies.
- PO4. After completion of this programme the students will be able to pursue higher studies in basic sciences or social sciences (M.Sc.) in different Universities, IIT's, IISER's, NIT's and other reputed institutes of higher learning in India and abroad, and then choose research career for the welfare of mankind and society. Students have also the option to enroll themselves for different applied science/ technical courses, B.Ed. and some other professional job-oriented courses such as BCA, MCA, MBA, Marketing etc.
- PO5. Students after completion of this programme have the eligibility to join jobs in Indian Civil Services as IAS, IFS, IPS etc., WBCS, UPSC, Banking Sector, Railways, Airlines etc., technical jobs at research institutes or as school teacher through SSC.
- PO6. Science graduates will be ready to serve in industries, may even become entrepreneur or may opt for establishing their own business or industrial unit. They and choose to start their own business or industrial units.
- PO7. After completion of the B.Sc. degree there are various other options available for the science students. Often, they are recruited by big MNC's and different reputed companies in IT sector. Many students are directly recruited by some reputed companies through campus recruitment drive every year.
- PO8. The students will be able to engage themselves in independent thinking and lifelong learning in the present context of scientific and technological advancement.

Programme Outcomes: Master of Arts

In Bethune College MA programme is offered in English and Bengali. The Programmes offer efficiency in a range of techniques and media like Communication, Analysis of verbal as well as written matter and critical appraisal.

- PO1. Students completing MA from this college have greater understanding of their respective subjects. Their aptitude of answering questions and self-evaluation, capability of writing and critical thinking gets enhanced.
- PO2. Students develop better communication skills. They engage themselves in inter and intra personal communications, behavioural change communication and get acquainted with the teaching-learning process.
- PO3. After completion of MA programme Students are either research oriented or they are Job oriented. They appear for competitive exams like NET, SET, GATE etc for further advancement of studies or degrees and successfully clear them. They also opt for B.Ed. or MBA programme. Some students get employed in different careers of their choices.
- PO4: Students learn to take Leadership and they shoulder social responsibilities. They demonstrate empathetic social concern and join community engagement programmes for contributing towards achievement of local, regional and national goals.
- PO5. Through Project works, field trips/ excursions, dissertations, paper presentations, students are imbibed into self- learning. They gain knowledge intrinsically and become more confident in life.
- PO6. With the growth in intellect and maturity in thinking and behaviour the moral dimensions of MA students spread out. They learn to take responsibilities of their actions and believe in tolerance and inclusiveness of opinions of others.
- PO7. Students are prepared for continuous learning and self- assessment for professional growth and development.
- PO8. It is of greatest importance that a Student should be aware of ethical issues and regulatory considerations while addressing society needs for growth with honesty.

Programme Outcomes: Master of Science

Post- Graduation in Science are offered in Botany, Zoology, Mathematics and Applied Psychology. The programmes aim to make students capable of independent thinking and train them to be skilled in implementation of innovative plans which would ultimately be for the greater good of the society.

- PO1. The student gains specialized knowledge for advancement in the field of Science.
- PO2. Critical thinking is inculcated among students to carry out scientific investigation objectively without being biased with preconceived notions.
- PO3. Students are motivated towards research work after completion of M.Sc. Programme.
- PO4. Students get to know about and use cutting edge instruments in the laboratories which makes them up to date of modern day science and technology.
- PO5. Field trips, Industry visits, Internships and excursions are conducted on regular basis to increase the employability of Students.
- PO6. Problem solving skills, thinking, creativity etc. are nurtured through assignments, project work.
- PO7. Keeping in mind that Postgraduate students can take up teaching at different levels, research work in research institutes and or industry, doctoral work, environment impact assessment, biodiversity studies, entrepreneurship, scientific writing relevant topics have been included in the curriculum.
- PO8. Most significantly, Students are trained to become responsible citizens of the Country with good moral ideas and ethical values.
